```
type Bitvector4 []byte
func NewBitvector4() Bitvector4 {
    return make([]byte, 1)
}

type BeaconState struct {
    GenesisTime uint64
    GenValRoot  [32]byte
    // ... (Slot, Fork, Roots, etc.)
    JustificationBits Bitvector4
    // ... (more fields)
}
```
